

BEMA Convention 2023

Workforce Edition - Daily Agenda

Daily Agenda

Wednesday, June 21st

12:00 - 12:50pm ET

Digital Twin & Industrial Internet of Things: Technical & Business Discussion

Provide learners with a high-end model of digital twins in the context of manufacturing and its co-relation with IoT. This course will focus on common themes with IoT and how project workstreams can be relevant to IoT-enabled projects; additionally, it will cover U.S. Government initiatives for Advanced manufacturing and how ASU supports technology and workforce development.

Session Facilitator: Raghu Santanam & Binil Starly

1:00 - 1:50pm ET

AZNext and Workforce Development Opportunities

U. S. Department of Labor-sponsored program developing sustainable workforce training infrastructure, paid internships, apprenticeships, train-to-hire programs, boot camps, and simulated work experiences intended to create talent solutions to meet industry needs.

Session Facilitator: Rob Buelow
